

Certificate No. 2015-340

## GREEN ELECTRICITY CERTIFICATE

We hereby confirm

**ALUTRONIC**  
SOLUTIONS FOR COOL RESULTS

Alutronic Kühlkörper GmbH & Co. KG  
Auf der Löbke 9-11 in 58553 Halver

the purchase of 100% green electricity from hydropower plants with modern environmental standards from 01. of January 2016 till 31. of December 2016.

Energy is generated in sustainable hydropower facilities that meet modern environmental standards and are connected to the European grid. The green power certificates of origin correspond to the criteria 1304 of TÜV Nord.

**With the redemption of the guarantees of origin it is granted that in 2016 the electricity had been produced 100 % climate neutral by renewable energy installations. Up to 349 tonnes of CO<sub>2</sub> will be avoided.**

The redemption in accordance with § 17 of the guarantees of origin act is carried out and confirmed by the registry of the federal environmental agency.
